## A New Portrait.

PARIS KY., January 12, 1897.  
I AM introducing a new portrait made by a new process. It is finer in finish than a large photograph made from life, which could not be produced for less than ten dollars; is beautifully colored in water colors and will never fade. I propose to make just fifty of these pictures, and to introduce them will make the following offer until Feb. 15th 1897:

I will make half dozen of my best cabinets and one (size 16x20 inches) above described portraits, with mat, complete, for \$6. You are not compelled to buy frame from me, but I can sell you frames cheaper than anybody, quality considered. Call and see these portraits. Respectfully,

L. GRINNAN, Photographer.

## Hicks' Predictions For January.

FROM 11th to 14th expect higher temperature and more rain and snow, with change to colder after storms; warmer again about 18th and 19th, with rain and snow, followed by cold wave. Another storm period from 22nd to 26th. Warmer, falling barometer and storms about these dates, with rising barometer and much colder afterward up to 28th, 29th. These are reactionary storm dates, bringing warmer weather and storms for the last days of January.
